Legend

Everyone knows that bees are very important for our planet, as they pollinate three of the four most important food crops for humans! As Einstein said, "if there are no bees, then there will be no humanity!"

The BNB Hive project was created to draw public attention to the problem of the disappearance of bees and, of course, earn BNB! Here you can hire bees that continuously earn honey! Every day and every second! You will be able to exchange honey for BNB rewards.

Advantages

Why is our project better than other similar projects?

-We Care! Our project was created to draw attention to a real-life problem. Save Bees and the World. Together!

-Vault. Instead of taking a commission for using our code, we created a special fund that will support the smart contract.

-The game of the new generation on a smart contract, which unites thousands of people around the world in a noble mission, allowing you to grow BNB capital.

Active
marketing

Fast and
affordable

Blockchain
technologies

Earn opps

Farming

- You buy bees, thanks to which, every day you will receive 2.1% of the amount of your investment, minus commissions!
- Minimum deposit is 0.1 BNB
- Minimum reinvest is 0.1 BNB
- You can invest max 10 BNB per week, so after 3 weeks you will be able to invest 30 BNB.
- You cannot reinvest, if you invest max possible deposit in Current Week, next week the limit will increase and you will be able to do it;

Referral system

Invite friends with your referral link and get BNB directly to your wallet up to 5 lines deep! 10% on the first line, 7% on the second line, 5% on the third line, 3% on the fourth and 1% on the fifth!

Compound

You can reinvest your daily reward, and hire more and more bees, which will constantly earn more and more honey, and therefore BNB. Your income will grow exponentially!

If you invite just 2 friends with 1 BNB, and they do the same you get 1.64 BNB directly in your wallet!

Fees

There is a small commission of 5% of which 3% is the developer commission needed to support the project and active marketing, and 2% go to the smart contract support fund, in other words, this fund replenishes the smart contract and maintains its balance. No more commissions!

Strategy

There are many strategies, but the most proven strategy in such projects is the **6/1 strategy**, when users reinvest 6 times a week and collect the reward on the 7th day. Experience shows that in this way the project will quickly gain momentum and draw more and more attention to the problem of the disappearance of bees!

Reinvest is available from 0.1 BNB!

FAQ

1. HOW DOES THE HIVE WORK?

You deposit BNB and receive 2.1% of your investment every day. The percentage is fixed and will not change. As long as there is BNB on the balance of the contract and its support fund, rewards will be paid.

2. IS IT SAFE?

Of course the developers don't have any access to the contract once it's launched, besides the contract has passed a security audit, the report will be available soon!

3. HOW MUCH ARE MY FEES?

There is a total fee of 5%. It consists of Dev fee - 3% and vault fee - 2%.

Dev fee is needed in order for the BNB Hive ecosystem to be developed.

4. WHAT IS A VAULT?

A Vault is a special storage that supports the main smart contract of the hive. Each beekeeper fills out the save by 2%. This is a fund that automatically replenishes the balance of the contract if necessary. We invest it in favor of the project instead of taking this award for ourselves.

5. WHAT IS THE MAXIMUM DEPOSIT AMOUNT?

In order for everything to be fair, we have limited the deposit that can be made from one account in the 1st week to 10 BNB and we will increase the possible deposit amount by 100% every week, so after the first week it will be possible to invest 20 BNB and so on.

6. HOW DO REFERRALS WORK?

There are 5 lines in the BNB hive referral program with the following percentages: 10%, 7%, 5%, 3% and 1%. When you connect your wallet to the site, you will receive your referral link in a special line. When a new user buys bees after clicking your personal referral link, the contract will send BNB DIRECTLY to your wallet. All missed profit income is automatically distributed to the hive support Vault!

7. HOW OFTEN SHOULD I REINVEST?

You can reinvest whenever you want, but minimum amount is 0.1 BNB
